Grant lots of chatter on Facebook by protestors about their MLA meeting and how mandates starting with masks are coming off Monday. If that is you, and if that is true , I would appreciate being kept in the loop , so when I talk to the guys here I know what they know. Thanks.

I did not meet with the MLAs yesterday as has been stated in some social media. I am talking with some of their leaders as I told you and reminding them to keep their protest peaceful and lawful. As for restrictions coming off I have no mandate to promise anything so they are not true. The Premier has the mandate to say what comes off and when and he has not told any of us what his plans are except what he said in his FB live the other day.
Lots of gossip going on out there but that's what I know.

Thanks Grant for clearing that up. I appreciate you getting back so soon. There's stuff out there about the rural caucus as well. Waiting to hear from Nathan for clarification. Have a good Sunday!

Two way street. Glen Motz and Lorne Buis were here for a couple hour yesterday. Got an RCMP update then went up to MR to talk to Marco. Glen is doing as much as he can at the Federal level. We all have the same message, protest but keep
It legal . Cheers .

Clarification . They went to MR and spoke with Marco. I stayed here. Also , before they left, we spent 45 minutes or so walking through Smugglers talking to folks, being seen. Not a secret visit at all.

So Marco is a Ft Macleod town Councillor. How does he reconcile illegal actions with his oath to the queen? No wonder he won't communicate with me.

Talked to Brent Feyter about Marco . It's all good. Marco has been working to make things closer to legal. Seems to be working. Traffic better than I've seen it since this started.

Jim I apologize but I'm going to have to cancel for tomorrow. I appreciate the invite but something has come up that I have to address. Hope you have a great day.
